

Manildra Test Bakery

Gladesville, NSW

Refurbishment to an existing test kitchen to meet hygiene standards.

PROJECT DESCRIPTION

Manildra operates a fully resourced Research & Development facility, staffed by highly qualified Scientists, Engineers, Bakers and Food Technologists who aim to continually discover new technology that is used to develop superior products which meet the evolving needs of the consumer.

The project involved relocating the existing test kitchen to a temporary location whilst refurbishing the existing area to meet strict hygiene standards.

The works included the installation of new plasterboard and sandwich panel walls encapsulating a new lab kitchen as well as a training room capable of holding up to fifty people.

Services were upgraded to provide a new complying air-conditioning and exhaust system.

OVERCOMING CHALLENGES

Having been engaged to design and construct under a project management agreement, we were successful in meeting our client's criteria for both price and delivery of the project.

CLIENT

Manildra Group

PROJECT VALUE

\$350K
